The British Voice Association

Voice Clinics Information Booklet

This Voice Clinics Information Booklet has been produced to offer the general public “bite-size” information about voice clinics around the UK, offering useful information such as telephone numbers and what a particular clinic has to offer.

As this is the first one of its type, we do not have information on all the voice clinics around the UK and for those that we do not have information on yet, we have listed at the end of the booklet, providing addresses only.

If you are a member of a voice clinic team that does not have their clinic listed with the “bite-size” information section, and would like this rectified for next year’s issue, please could you contact the BVA – using the strict format – at administrator@britishvoiceassociation.org.uk or sending to: **The Administrator, British Voice Association, 330 Gray’s Inn Road, London WC1X 8EE.**

Thank you.
